Your CDMO of Choice in Oral Solid Dose Production

Manufacturing and Packaging of Tablets, Capsules and Sachets
EU Import, Re-Analytics, QP-Release

MD Meymac Technologies

Our facility specializes in the production of solid oral dosage forms, including tablets, capsules, powders and granules.

Manufacturing of Oral Solids

Tablets

- + Direct compression
- + Film coating (water based and organic coating)
- + Fluid bed drying
- + Roller compaction
- + High shear granulation
- + Wet granulation (based on water and organic solvents)

Hard Gelatine Capsules

- + All capsule sizes
- + Filled with powder and granules

Sachets

- + Different filling volumes per sachet
- + Filled with powder or granules
- + Material: aluminium sachet

Pharmaceutical Packaging

Blister Packaging

- + PVC/PVDC
- + Alu/Alu
- + Multi-layer foils PVD/PE/PVDC
- + Tamper-evident systems
- + Serialization capabilities

Bottle Packaging

- + Wide range of bottle formats
- + Various materials and closure systems
- + Flexible secondary packaging like labels, booklets, folding boxes

Services

Analytics

MD Meymac's labs provide high-quality testing of APIs, excipients and drug products.

Pharmaceutical Transfer

Our tech transfer team ensures smooth, secure product integration with a focus on efficiency and precision.

EU-Import & QP-Release

These services include EU import of products manufactured outside the EU, their analysis and QP release for the European market.

- + EU-Import
- + Re-Analytics
- + QP-Release

Strong Expertise in Technical Transfers

With a strong focus on GMP compliance and transparency, we ensure that every transfer is carefully planned, professionally executed and aligned with all relevant regulatory and operational standards.

Our experienced team collaborates closely across functions to guarantee a smooth, risk-managed transition from development to commercial production.

- + Analytical method transfer or validation
- + Scale-up and process validation
- + Documentation alignment and regulatory compliance
- + Cross-site coordination

MD Meymac, situated in the middle of France, is your partner in oral dosage form production, EU-import and QP-release.
